

Senior Program

The Senior program invites pupils who were selected for the program in previous years to take part in a unique Continuation Plan. This program suits our 11th and 12th students who are much busier with their studies and therefore have different needs. These meetings allow existing friendships to grow stronger, create new cross-sector cooperation and enhance in-depth work on topics related to ideas of a Shared Society Leadership. Creating this extra component to the project is an important step towards making NAMAL programs sustainable and effective.
